SELECTMEN'S FOREWORD

The year 1967 proved to be a year of many changes for the citizens of Marlborough, for it was during this past year that the Town experienced a great change in the appearance of its main street as well as a great change in its tax and financial structure.

The assessors of the State Tax Commission have completed the reappraisal work of all property in the Town assessing them at 100% valuation giving the Town a total valuation of \$7,732,180. and establishing a tax rate of \$3.54 per \$100 valuation.

The reconstruction and relocation of Route 101 has been completed and plans have been made with the Beautification Division of the State Highway Department, and the local Planning Board to plant various types of ivy and trees to beautify this central part of Main Street.

The reconstruction of Pleasant Street was started as per schedule and that part of the road from Bridge Street to the Hemenway property was completed. We recommend that this project be continued this year with completion of the road up to a point opposite the Ferranti residence.

The sewage disposal problem still remains as one of great concern and we would recommend that the Town authorize the Selectmen to continue their study of the problem with the other surrounding towns in conjunction with the Ashuelot Valley Council.

The recently appointed Public Lands Committee has not completed their investigation and study of titles and rights of ways. This study will continue and it is expected that this work will be completed this coming year.

During the past year the Town Highway Department constructed a new bridge consisting of 4 foot cement tile on Robbins Brook and began the reconstruction of Ryan Road. A great deal of ledge was encountered in this project necessitating a substantial amount of drilling and blasting. We recommend the completion of this road this year.

A trailer park has been well established with eight mobile home units already installed on Ryan Road and the completion of Ryan Road will facilitate further installation of additional mobile homes in this trailer park.

The equipment of the Town Highway Department is in need of replacement in many areas. We recommend that the Town give consideration to the purchase of a new grader, as this is the piece of equipment that is most needed at this time.

TOWN OFFICERS

Moderator : FRANK E. KNIGHT

Selectmen : *CHARLES B. KNIGHT, ALFRED S. DESPRES,
chm. '68; DAVID E. CHENEY 1970

Town Clerk : OSCAR F. CROTEAU Road Agent : JOHN T.

The State of New Hampshire

TOWN WARRANT

To the Inhabitants of the Town of Marlborough in the County of Cheshire in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Marlborough High School Auditorium in said Marlborough on Tuesday, the Twelfth day of March, next at one of the clock in the afternoon, business meeting to be held at seven-thirty in the evening to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
 - 2A. To see what sums of money the town will raise and appropriate for Highway operations: —
Summer and Winter maintenance and general expense.
3. To see if the Town will vote to raise and appropriate the sum of \$4,000 for the application of tar to the highways.
4. To see what sum of money the Town will vote to raise for repair and construction of sidewalks.
5. To see if the Town will vote to raise \$720.74, the State to contribute \$4,804.91, for Class V road construction, apportionment A.
6. To see if the Town will vote to raise and appropriate the sum of \$3,000 for street lighting.
7. To see if the Town will vote to raise and appropriate the sum of \$4,500 for repairs, water storage and equipment of Fire Department.
8. To see if the Town will vote to raise and appropriate the sum of \$700 for a School Patrol Officer.
9. To see if the Town will vote to raise and appropriate the sum of \$100 toward the eradication of White Pine Blister Rust.

10. To see if the Town will vote to raise and appropriate the sum of \$3,000 for the District Nursing Association.

11. To see if the Town will vote to raise and appropriate the sum of \$1,270 for support and operating costs of Elliot Community Hospital.

12. To see if the Town will vote to raise and appropriate the sum of \$5,008 for operating costs of Frost Free Library.

13. To see if the Town will vote to raise and appropriate the sum of \$305 (six cents per thousand dollars of equalized valuation of the Town) to the Monadnock Region Association of southwestern New Hampshire for issuance and distribution of printed matter, newspaper and magazine advertising, and by other means calling attention to the resources and natural advantages of the Town, in cooperation with the other thirty-seven Towns of the Monadnock Region.

14. To see if the Town will vote to accept the report on Sewage Disposal Problems, dated February, 1968, which was prepared for Ashuelot Valley Regional Planning Commission by Camp, Dresser & McKee, Consulting Engineers of Boston, and take any other action necessary thereto.

15. To see if the Town will vote to raise and appropriate the sum of \$300 for Memorial Day.

16. To see if the Town will vote to raise and appropriate a sum not exceeding \$6,000 for the purpose of making improvements to the following Class V roads within the Town;

Pleasant St. from end of completed project at Sta. 24 +00 for 1000' more or less (Ferranti Property); such sum to be raised through the issuance of bonds or notes under and in compliance with the provisions of Chapter 241, New Hampshire Revised Statutes Annotated, as amended, and to authorize the Selectmen to determine the date and place of payment of such bonds or notes and to determine the rate of interest thereon, and to take such other steps as may be necessary to negotiate such bonds or notes as shall be to the best interests of the Town of Marlborough.

17. To see what sum of money the Town will vote to appropriate for the Recreational Commission.

18. To see if the Town will vote to raise and appropriate the sum of \$3,135 for hydrant rental.

19. To see if the Town will vote to raise and appropriate \$1,000 for retirement of water note due December 15, 1968.

20. To see if the Town will vote to raise and appropriate \$4,500 for the completion of repairs to Ryan Road.

21. To see what sum of money the Town will vote to raise and appropriate to cover approximately 100' of open brook below the Cheney-Cote Woven Label Co.

22. To see if the Town will vote to raise and appropriate the sum of \$500 to purchase an automatic sander for the highway department.

23. To see if the Town will vote to raise and appropriate the sum of \$10,276.52 to pay off the deficit of the Water Works Department for the moving of water mains and hydrants; \$2,276.52 to be raised by taxation this year and the balance to be paid by the issuance of serial notes in the amount of \$2,000 each to mature as follows: Note No. 1 payable December 1, 1969; Note No. 2 payable December 1, 1970; Note No. 3 payable December 1, 1971; Note No. 4 payable December 1, 1972.

24. To see if the Town will vote to raise and appropriate the sum of \$1,200 to purchase two new radios for the Police Department to replace the old ones.

25. To see if the Town will vote to raise and appropriate the sum of \$3,000 for the purpose of building new lots, relocating of some of the road, and the laying of some new water pipes in Pine Grove Cemetery

26. To see what sum of money the Town will vote to raise and appropriate for the purchase of a new road grader and authorize the Selectmen to trade in the old grader towards the purchase price.

27. To see if the Town will vote to raise and appropriate the sum of \$21,500 for the purchase of a new fire truck. The Town to raise \$1,500 this present year, and the balance to be financed by serial notes of \$2,000 each, sold in the name of the Town under and in accordance with the Municipal Finance Act and amendments thereto. And to delegate the Selectmen with the authority to fix the dates of maturity and the interest rate. And to provide for such other action in respect thereto as may be necessary. All in accordance with the laws of the State of New Hampshire.

28. To see if the Town will vote to raise and appropriate the sum of \$1,000 to establish a capital reserve fund for buying a new fire truck, or act in any manner thereto.

29. To see if the Town will authorize the Fire Department to establish a capital reserve fund for equipment, and to further authorize the Fire Department to deposit any balance of the annual appropriation in said fund.

30. To see what sum of money the Town will raise and appropriate for the relocation of the hydrants at Prospect and Terrace Streets, or act in any manner relating thereto.

31. To see what sum of money the Town will vote to raise and appropriate to construct a fence of wood posts and steel cable,

a distance of approximately 280 feet, westerly on Highland Avenue from the junction of Seavey Court.

32. To see if the Town will vote to adopt the provisions of the game of Beano.

33. To see if the Town will vote to raise and appropriate the sum of \$100 to erect the old Stone Guide Board at the intersection of Bridge and East Main Streets.

34. To see what the Town will vote to appropriate for Civil Defense.

35. To see if the Town will authorize the Selectmen to issue a permanent restraining order to keep dogs restrained from February 1 to September 1 in accordance with the Laws of The State of New Hampshire.

36. To see if the Town will vote to accept funds for perpetual care of cemetery lots.

37. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

38. To see if the Town will vote to authorize the Selectmen to sell property acquired by Tax Collectors Deeds and Gifts.

39. To hear reports of Town Agents, Auditors and Committees.

40. To transact any further business that may legally come before the meeting.

Given under our hands and seal, this ninth day of February, in the year of our Lord nineteen hundred and sixty-eight.

**REPORT OF THE
POLICE DEPARTMENT
For Year 1967**

There were 37 accidents of various natures this year in town. There was 1 death on the road, 9 people injured, and over \$20,000 in property damage.

There was also 1 person fatally injured in a plane crash.

We have had a lot of trouble with dogs with more than ever being hit by cars. 3 people were reported bitten by dogs.

We have had quite a lot of juvenile delinquency such as broken windows, and things being thrown at passing cars.

There were 3 breaks in town with goods being stolen in 2 of them. To date only 1 has been solved. That one was by juveniles.

We have had some problem with cars being parked on the side of the road all night interfering with snow removal. Such cars are subject to be towed away at the owner's expense.

We also had the usual number of complaints on domestic strife, and of children running away from home.

The traffic is moving somewhat faster through town now due to the new road eliminating the bad corners.

We also had a problem with a moose for a few days. There were several thousand people came to town to see it. We were very fortunate not to have any accidents as a result of it.

We have had a prowler going through town for some time now. We have put in a lot of time looking for him, but as to date he still eludes us.

The 2 two-way radios we have are about 20 years old now and are giving us a lot of trouble and expense to keep going. We should have 2 new ones to replace them.

Respectfully submitted,
ERNEST THOIN, Chief

FIRE WARDS' REPORT

The Fire Department answered 22 calls this last year; 4 General alarms, 11 Still alarms, 5 Resuscitator calls, and 2 Mutual Aid calls to Keene.

The Fire Wards feel that the hydrants at Prospect Street and Terrace Street should be relocated.

The firemen spent many hours this year rebuilding the tanker, and now have it in service.

We purchased 1,600 feet of forestry hose with the \$1,000 special appropriation.

We also purchased 650 feet of 2½ inch hose from our regular appropriation to help replace old hose.

The Fire Wards wish to thank the members of the fire company, Selectmen, Local and State Police, and the citizens of Marlborough for their fine co-operation during the past year.

ERNEST BEAUREGARD, ROBERT CAPRON, LLOYD FRETCHETTE, CARL RUSSELL, CLAYTON WILCOX, The Fire Wards.

Frost Free Library Centennial Report

The Library Centennial Celebration was the high light of the year. Though the building program was proposed as a tribute to the donor, Rufus S. Frost, delays in the program made it impossible to have the building finished for formal dedication at that time. This occasion will be held April 21st, 1968 at 2:00 P.M.

To commemorate the dedication of the library the Centennial Program was held on the library lawn with band concert and speakers as it was one hundred years ago to the day. One hundred and thirty-four people signed the guest book. Mr. Rufus Frost and Mrs. Mabelle Page, Honorary Trustees, former trustee Miss Ruth Hemenway, former librarian, Mrs. Inez Mahon and Mrs. John Lane, former assistant librarian were present.

The Old Homestead Band under the direction of J. Edward Bouvier furnished music for the program. Invocation was given by Rev. Leo Allyson, priest of the Sacred Heart Church. Words of Welcome were extended by Mr. Alfred Despres, chairman of the board and Mrs. Cecil Nash, librarian. A brief history of the library was given by Mr. Oscar Croteau who served as Master of Ceremonies. Guest speakers were: Mrs. Elizabeth Yates McGreal, noted author and member of the New Hampshire Library Commission, and Mr. Wilfred Morin, director, Freeport Memorial Library, Freeport, New York. Mr. Morin grew up in our town and had fond memories to relate of his weekly visits to the library which he felt helped direct him to a library career. Mr. Morin holds many degrees. Besides his library duties he teaches at Pratt Institute's Graduate School of Library Science. He is doing outstanding work in the field of librarianship. We are indeed grateful to Mr. Morin for arranging his busy schedule so that he could be with us on this occasion. Benediction was given by Rev. Whitney Hale, a grandson of the donor of our library and who now resides in town.

Following the program the Centennial Cake was cut and served by Mrs. Ralph Williams and Mrs. Arthur Knight, library trustees. Mr. and Mrs. Edward Wilson, Jr. and Mr. and Mrs. Edward Wilson, Sr. and other members of the local Grange served punch and cookies.

SERVICES

Library was open 206 days.

Sponsored 24 film programs.

Librarian gave 10 Book Talks at school.

Loaned 650 books to school for class room use.

Sponsored 14 STORY TIME programs—average attendance was 16.

Loaned 161 picture puzzles.

Borrowed 1191 books from the State operated Bookmobile to augment our collection.

Borrowed 35 16mm films from the State Library.

Service to shut-ins has been carried on by members of the 4-H.

Anyone interested in this service is invited to contact the librarian.

The book rental plan to which we subscribe gives us eleven new titles each month and a basic inventory of 100 books. This makes it possible for us to have the latest books on our shelves within a few days after publication without charge to the patron.

The Columbia Record Company made us another gift of 30 records. Mrs. Robert White who summers in our town has made a gift of a record player, table and two head sets in memory of her mother, Mrs. Margaret Chapin Bazeley. The record loan library service will be offered in April. Gifts of records will be gratefully accepted.

Circulation figures can only begin to measure service of our library to the towns-people. We started last January to keep a record of reference questions, those of direction and how to use the library but it was difficult to find time to tally them accurately, so rather than rely on our memory at the end of the day to arrive at a figure we decided not to attempt to keep a record. However, we did evaluate our time and found that reference questions, direction and how to use the library consumed two-thirds of our time.

The hundred dollars allocation from State Aid the past two years has helped up-date our reference collection. With local funds we added the **Encyclopedia International**, which is very good for the sciences and world history.

We still lean heavily on the bookmobile and the State Library for non-fiction books which fill the gaps in our collection. We received 102 books out of 135 special requests to the State Library and 20 books from the bookmobile.

The trend of our library service is not unlike that of our sister libraries throughout the country. We are becoming the informa-

tional center for our community as well as the cultural center. The demand placed on libraries to locate information in a short period of time has made it necessary to install computers. Though we will not have a computer in our library we will be using computer service at the State Library level in the very near future.

The business of building along with celebrating our Centennial year not to mention the regular library routine, professional meetings and plans for dedication have made this more than a busy year. I have enjoyed every minute of it. My only regret is that my energy didn't always keep pace with my ideas and plans. I am personally appreciative to the trustees for their assistance and understanding during the past year. I have taken more time from some than others due to committee responsibilities. You have rendered a most generous service to the town for which its citizens are most grateful, I'm sure.

I would like to extend a word of thanks to Mrs. Robert Williams, my assistant, Mrs. Arthur Knight our Story Time narrator and Mr. Cecil Nash, custodian for their faithful service.

The community effort to promote and support the library building program gives one a good feeling to be living in a town where the seemingly impossible is accomplished by citizens pooling monies and sharing responsibilities plus talents. These efforts were recognized by the Kresge Foundation with a \$5,000.00 grant and \$1,500.00 grant from the Shieling Trust of New Hampshire. Summer residents too, have given generously to the building project because of their interest in our town.

In closing I would like to leave you with this thought from: JESTING PILATE by Aldous Huxley

"Every man who knows how to read has it in his power to magnify himself, to multiply the ways in which he exists, to make his life full, significant and interesting."

Your library is at your service, let us know how we can best serve you.

Respectfully submitted,
MRS. CORINNE NASH

REPORT ON YOUR MONADNOCK REGION ASSOCIATION

To the Town of Marlborough

The Monadnock Region Association pledges itself to the continuance of its efforts to preserve the traditional beauty, dignity and character of our Region.

We pledge ourselves to the service of every area resident, organization and town as we face today's and tomorrow's problems of housing, employment, industrial growth, zoning, air travel and highway expansion.

This growth is apparent today and will make itself felt even more in the months and years ahead. Through the dedicated efforts of the Monadnock Region Association, its 37 towns and the city of Keene . . . the development of our Region will be controlled and desirable.

Annual Statement of Income and Expenses Fiscal Year July 1, 1967 thru June 30, 1968

		EXPENSES

		Reserve	1,000.00
TOTAL	\$30,000.00	TOTAL	\$30,000.00

Cemetery Committee 1967

We used the balance of the Charles E. Ward Fund as far as it would go at the Center Cemetery for expansion, plus funds received from the sale of lots. As fast as lots are sold we will use the proceeds to make additional ones.

We do have a serious matter at Pine Grove Cemetery with only 2 lots available. We need funds to develop and build lots as well as build the water line for them.

Balance on Hand \$ 740.18

Receipts

1967 NOTES

4. Principal added of \$1775.00 in the Manchester Federal Savings bank is made up of the following new or additional funds:

\$200.00	ARTHUR & ROBERT L. BENNETT CEMETERY FUND: Created June 26, 1967 by Mr. & Mrs. Robert L. Bennett, Longwood Drive, North Swaney, N. H.; the income to be used only for the perpetual care of lots #83 and #85 in Pine Grove Extension Cemetery.
\$150.00	CURTIS FAIRBANKS CEMETERY FUND: Created 9/18/67 by his widow, Mrs. Esther Fairbanks, Marlborough, N. H.; the income to be used only for the perpetual care of cemetery lot #49 in Pine Grove Extension Cemetery.
\$100.00	JOHN E. FARWELL CEMETERY FUND: Created 5/1/67 by himself; the income to be used only for the perpetual care of lot #199 in Pine Grove Extension Cemetery.
\$100.00	GEORGE J. KORPI — ELIZABETH VALKAMA CEMETERY FUND. Created in the amount of \$50.00 on 12/20/66 and received by the trustees in Jan. 1967. An additional \$50.00 was added by Mrs. Elizabeth Valkama (sister of George J. Korpi) on Sep. 18, 1967 to make a total principal of \$100.00; the income to be used only for the perpetual care of lot #194 in Pine Grove Extension Cemetery.
\$200.00	RAYMOND PATTERSON CEMETERY FUND: Originally created 4/11/67 in the amount of \$100.00 by his wife, Florence Patterson of Gilsum, N. H.; an additional \$100.00 was added 5/15/67 making the principal \$200.00; the income to be used only for the perpetual care of lot #200 in Pine Grove Extension Cemetery.
\$200.00	CLIFFORD E. RICHARDSON, SR. CEMETERY FUND: Created 7/20/67 by his widow, Mrs. Ella P. Richardson; the income to be used only for the perpetual care of lot #18 in Pine Grove Extension Cemetery in Marlborough, N. H.
\$100.00	JESSIE WELLINGTON CEMETERY FUND: Created 11/20/67 by Mrs. Bessie Gannett, West Palm Beach, Florida; the income to be used only for the perpetual care of cemetery lot #60.
\$150.00	LEWIS WHITE CEMETERY FUND: Created 7/17/67 by Mrs. Edna White, his widow, the income to be used only for the perpetual care of lot #32 in Pine Grove Cemetery.
\$300.00	JOHN, DAVID & SAMUEL TOTTEN CEMETERY FUND: Created 8/28/67 by J. J. Totten, 377 Fifteenth Ave., Norwood, N. J.; the income to be used only for the perpetual care of lots #107 and #108 in Pine Grove Extension Cemetery.
\$1500.00	Total New Cemetery Funds
\$275.00	PICNIC GROVE PARK FUND: Created from the sale of the "Picnic Grove" on 12/29/66 and received by the Trustees in Jan. 1967. The deed to the "Picnic Grove" as recorded in Vol. 387/567 on April 9, 1919 reads: "All revenue received from this property whether from sale or otherwise shall be used for the purchase of another tract of land in said Town for a public park or the improvement of the same."
\$1775.00	TOTAL NEW FUNDS ADDED IN 1967 in Manchester Federal Savings

- b. Includes \$916.25 unspent 1967 income from \$25,000 U. S. Treasury 3-7/8s 71 and \$88.94 unspent 1967 income from Manchester Savings Bank or a total of \$1,005.19 unspent 1967 income.
- c. The HERBERT & TRESSIE WISWALL CEMETERY FUND was originally created in the amount of \$150.00 on 7/25/63 by Mrs. Edith Wiswall Blomback (daughter); \$50.00 was added on 5/15/67 to make the principal total \$200.00; the income to be used only for the perpetual care of ½ cemetery lot #153 in Pine Grove Extension Cemetery.
- d. The \$107.29 Special Reserve Fund was closed out along with the 1967 Town Meeting.
- e. LIBRARY BUILDING FUND as per the vote taken at the 1967 Town Meeting.
- f. Interest on the \$50,000 U. S. Treasury 3-7/8s 71 (which cost \$49,906.25) actually earned \$1937.50 less \$90.00 bond cost and less \$15.00 cost of appraisal of Kate K. Davis Estate as required by N. H. Attorney General's office and necessitated by appointment of Oliver F. Derby as Trustee to replace Clifford E. Richardson, Sr. (deceased)—making the net amount of interest earned and available on the 2 Funds invested in these \$50,000 bonds as \$1832.50 or \$916.25 per Fund.
- g. Since the unexpended interest on the \$50,000 U. S. Treasury 71 obviously can not be reinvested in same, the unexpended interest has been added to the Manchester Savings Bank (John Kimball Children's Health Fund)
- h. An addition of \$100.00 was added to the principal of the ERNEST W. BLOMBACH CEMETERY FUND on 5/15/67 by his son, Gerhard Blomback, to make the total principal \$200.00.

Respectfully submitted,

Oliver F. Derby,
Roland A. Whitney,

Trustees

I have examined the accounts of the Trustees of Trust Funds, Town of Marlborough, N. H. and have found them correct to the best of my knowledge and belief.

Rachel Ohman,

Auditor

REPORT OF PLANNING BOARD

The Planning Board has met with Mr. Lloyd Sawyer of the N. H. Highway Department to plan the beautification of the newly-constructed section of Route 101 in the center of town. Several organizations have offered contributions for this with the state to contribute a large share. Planting will begin in the spring.

The board asked the State Tax Commission to clarify a motion which had been passed at the 1943 town meeting stating that all unexpended funds voted at a meeting should revert to the town's general fund. The commission stated that any money voted for a specific project should be carried over until the project is completed. Any remaining funds may then revert to the general fund. Because of this interpretation capital reserve funds may be set up for the purchase of equipment rather than borrowing large amounts of money. The board feels this would be a more economical way to obtain equipment.

The \$4,000 voted at last year's meeting for the purpose of developing a Comprehensive Plan for the town is being held until federal funds are available. Priscilla Richardson, chairman; William Piper, Jr., treasurer; Clayton Wilcox, Alan Young, Alfred Despres, selectman representative.

TOWN AUDITOR'S REPORT

This is to certify that I have examined the books and records of the Selectmen, Town Treasurer, Town Clerk, Tax Collector, Collector of Water Rents, Road Agent, Trustees of Trust Funds, Cemetery Committee and Library, for the year ended Dec. 31, 1967, and found them correct and properly vouched, to the best of my knowledge and belief.

RACHEL OHMAN
Town Auditor

REPORT OF ASHUELOT VALLEY REGIONAL PLANNING COMMISSION

The Ashuelot Valley Regional Planning Commission has submitted a detailed feasibility report on the possibilities of joint sewage disposal for all or some of the municipalities of Keene, Marlborough, Swanzey and Troy. The report was prepared by the firm of Camp, Dresser & McKee, Consulting Engineers of Boston, and contained the following conclusions and recommendations relative to the Town of Marlboro:

Conclusions

1. The State of New Hampshire has recently classified the Ashuelot River and its tributaries in the vicinity of Keene as Class B waters. The new stream standards are such as to require a higher degree of treatment than screening, plain sedimentation and chlorination.

2. Some of the inhabitants in Marlboro Center are currently discharging raw sewage to drains leading to Minnewawa Brook and Marlboro may have to provide a sewer system and a sewage treatment plant in the very near future as the most feasible solution to this problem.

3. The Federal Government provides additional funds for constructing sewage disposal facilities which involve more than one municipality, by raising its share from 50 percent to 55 percent of the total construction cost under these conditions. At the present time, the State of New Hampshire provides 40 percent of the total cost of such facilities under either circumstances, with the result that either 90 or 95 percent of the total cost may be obtained from State and Federal Grants. Thus, the total cost to a town would be reduced by 50 percent if it entered a joint plan for sewage disposal, all things being equal.

4. Treatment facilities constructed by industries are only subsidized to the extent that the facilities may be deducted from earnings as a capital expense and the result may well be financially disastrous to the industries involved. However, if the facilities are constructed by a municipality, the facilities can be financed in accordance with the conditions set forth in the previous paragraph.

5. The most economical solution to the sewage disposal problems of the members of the Asheulot Valley Regional Planning Commission would include joint operation of three sewage treatment plants. The main plant would serve Keene, Marlboro and North Swanzey. West Swanzey and Troy would have individual plants because of the great distances from other population centers.

6. Marlboro will save \$20,000 in estimated capital costs under this plan, as compared to going on its own, and will do no better under any other plan. Operating costs will not be increased.

7. Operating and maintenance costs will be the same or less for all municipalities if all of the sewage disposal facilities, including pumping stations and trunk sewers, are administered by one organization. The removal of this burden from the shoulders of the local administration cannot be measured in monetary terms.

8. Local sewer systems should be operated and maintained by individual municipalities to control extensions and service locally.

Recommendations

1. Establish a regional commission to supervise the construction and operation of sewage disposal facilities for the municipalities of Keene, Marlboro, Swanzey and Troy.

2. Construct a trunk sewer along the Branch and Minnewawa Brook to serve systems of sewers in South Keene and Marlboro Center, utilizing the existing 24-in. outfall, if possible. The trunk sewer would discharge to a new main pumping station and sewage treatment plant in Keene.

3. Zone for one-acre house lots those portions of each municipality not included in sewered areas, to provide adequate room for individual sewage disposal systems.

Copies of the report may be inspected at Town Offices.

SCHOOL WARRANT

To the inhabitants of the school district in the town of Marlborough
qualified to vote in district affairs:

You are hereby notified to meet at the High School in said district
on the 9th day of March, 1968, at 3 o'clock in the afternoon to
bring in your votes for the election of the following officials:

1. A moderator for the coming year.

A clerk for the ensuing year.

A member of the school board for the ensuing two years.

A member of the school board for the ensuing three years.

A treasurer for the ensuing year.

An auditor for the ensuing year.

You are hereby further notified to meet at the High School in said
district on March 9, 1968, at 8:00 P.M. to act upon the following
subjects: (Polls will open not later than 3 P.M. nor close earlier
than 9 P.M.)

2. To determine and appoint the salaries of school board members
and the truant officer, and to fix the compensation of any other
officer or agents of the district.
3. To hear the reports of agents, auditors, committees or officers
chosen, and to pass any vote relating thereto.
4. To choose agents, auditors and committees in relation to any
subject embraced in this warrant.
5. To see what sum of money the district will vote to raise and
appropriate for the support of schools, for the salaries of school
district officers and agents and for the payment of statutory
obligations of the district.

6. To see if the district will vote to authorize the school board to make application for and to accept, on behalf of the district, any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire.
7. To see if the district will authorize the school board to establish a kindergarten, and if the vote is favorable to formulate a separate transportation policy for kindergarten children.
8. To see what sum of money the district will raise and appropriate for the purpose of operating and equipping a kindergarten.
9. To transact any other business which may legally come before this meeting.

Given under our hands at said Marlborough this 12th day of Feb., 1968.

ALPHONSE A. DESPRES
FREDERICK P. HARRSEN
RICHARD BUTLER

MARLBOROUGH SCHOOL DISTRICT COMPARATIVE BUDGET

	1967-1968	1968-1969	Increase Decrease	Percent
Appropriation	\$269,102.14	\$284,464.50	\$15,362.36	+ 5.7%
Receipts	58,590.50	41,010.00	-17,580.50	- 30.0%
Raised by taxes	<u>\$210,511.64</u>	<u>\$243,454.50</u>	\$32,942.86	+ 15.6%

*Note — This is an estimate. After the current fiscal year, the State Commission will adjust the amount of estimated receipts, up or down, to reflect actual receipts from the balance on hand, July 1, 1968, Sweepstakes, Foundation Aid, and Building Aid. The Commission will then increase or decrease the amount to be raised by taxes accordingly.

REPORT OF PRINCIPAL

I am submitting herewith my report as Principal of the Marlborough Schools. I shall attempt to be brief but will include material which I believe to be pertinent and significant.

Two Year Enrollment Comparison

	September 1967	September 1966	
	Total	Total	Change
Grade 12	21	27	-6
Grade 11	24	23	+1
Grade 10	25	28	-3
Grade 9	30	30	0
<hr/>			
Sr. H. S. Total	100	108	-8
Grade 8	32	33	-1
Grade 7	35	37	-2
<hr/>			
J. H. S. Total	67	70	-3
Grade 6	34	35	-1
Grade 5	29	36	-7
Grade 4	22	29	-7
Grade 3	28	28	0
Grade 2	33	25	+8
Grade 1	42	42	0
<hr/>			
Elem. Total	188	195	-7
Boys	192	198	
Girls	163	175	
<hr/>			
Grand Total	355	373	-18

A few interesting observations can be made on the enrollment. The column indicating change is realistic only when applied in an impersonal sense to show comparison of grade size. It does not tell what is happening to specific groups of pupils. Obviously, some diagonal observations would have to occur as groups of students listed on one line in 1966 figures are for the most part seen one line higher in the 1967 figures. We have a total loss of 18 pupils in the one year period. A check of the registers gives the explanation. Three families, each with several children, moved from town and their residential units were occupied by families with no school age children. Other instances of families coming and going have nearly balanced each other.

We expect to graduate twenty students in June. The census figures indicate slightly more than forty who should be entering grade one in September. On the surface, this indicates an increase in total enrollment next year.

Ten years ago our total enrollment was three hundred thirty-three and five years ago it had risen to four hundred nine (409). The latter figure included a sizeable group of pupils from Harrisville. This group has gradually diminished as Harrisville joined the Keene AREA plan for Grades 9-12. This loss of tuition pupils makes a very significant change in some of our grouping plans in the high school program. It is much more difficult to work out arrangements now that are effective educationally and at the same time reasonably sound financially. Hopefully we will see increases in numbers of upper grade pupils in the near future.

Program and Curriculum — Grades 7-12

In these grades we maintain a double track program in practically all areas. This permits the college bound student to study and to be instructed in greater depth than his fellow student with other interests and abilities. It also permits the latter group to explore shorter term patterns of preparation for earning a livelihood. In most instances our students respond well to the opportunities offered.

That our efforts are successful seems to be borne out by experiences of our graduates in college and by the reasonably good adjustments that our non-college group makes as young adults. A complete follow-up study of our graduates will substantiate the last statements I am sure. Much credit must go to a loyal staff who take personal interest in our students.

We feel that our curriculum has been adjusted reasonably well as times and values have changed and demands on students in the post-secondary world have become greater. We are currently giving thought to some changes in the offerings in our practical arts areas and we hope revisions will be in effect in September.

School Staff — Grades 1-12

All full-time teachers in Grades 1-6 last year returned in September. We felt most fortunate to have this happen in these days of lack of qualified personnel when so many teachers change positions. Our program was strengthened by employing Mrs. Lovering on a full-time basis. She is working extensively in remedial reading.

In the upper grades there are three classroom teachers who are new to our system this year. Mr. John Clouthier, a 1967 graduate of Keene State College replaced Mr. Kerylow as a teacher of Mathematics. Mrs. Sally Reade, with some previous educational experience, is teaching the courses taught by Robert Lammela. Both Mr. Kerylow and Mr. Lammela obtained positions in a new regional school. Mr. Jay Schofield, a Plymouth State College graduate with three years of experience, was employed to replace Mr. Paul Brecknell who accepted a teacher-coach position in a larger school. Mrs. Elaine Webber who had been teaching Art on a part-time basis became a full-time teacher as she continued her work in Art and took over some of the classes taught last year by Miss Barbara Starkey.

Mr. Robert Nute is full-time music supervisor in all grades. He is doing the work previously shared by Mrs. Wilson and Mr. Nash as well as extending the instrumental program. Mrs. Wilson retired in June and Mr. Nash has been given more time to work in Guidance and Library Services.

The School Plant

We are endeavoring to maintain the buildings in satisfactory condition as economically as possible. Much of the maintenance is done by the custodian with assistance from outside when needed. We are painting areas on a rotation basis which eliminates a major expenditure at any one time. As part of the high school building is in its eleventh year, we must soon look toward an exterior painting, however. Further care and improvement of appearance can be effected if we get some additional custodial help as planned.

The Graduates

Fifteen of the twenty-four members of the Class of 1967 joined other graduates in post-secondary education in September. This is a good record and compares favorably with that of any public secondary school. Other members of the class are employed in area industry or are in the armed forces.

For the record I am including a list of the graduates as part of this report.

Class Roll

David Philip Jewett	1st Ranking Student
Robert Atwood Hackler	2nd Ranking Student
Diane Patnode	3rd Ranking Student
Beverly Ann Coutts	4th Ranking Student
Joan Marie Edwards	5th Ranking Student
Sally Ann Seaver	6th Ranking Student
Wendy Joan Barrett	Richard Paul LeBrun
Marlene Eva Bleau	Ronald Bruce Nason
Elyce Jean Castle	Carol Nancy Ogilvie
Kenneth Richard Clark	Brenda Jean Robinson
Philip James Eastman	Patrick John Ryan
Beverly Jean Goodell	Patrick Lucas Sheehan
Howard E. Goodyear	Charles Edward Stone
Barry Don King	Constance Jean Stoodley
Peter Lee Langley	Lennie Robert Weeks

Extra-Curricular Activity

Several clubs and organizations function within our school. These include such groups as the Student Council, Dramatics Club, Future Teachers of America and the musical units. In addition, considerable social activity is sponsored as classes, clubs and others hold dances and socials on week-end evenings. These are supervised by staff members who give generously of their time in order that our student body can promote this phase of school life.

Our school is represented by boys' athletic teams in soccer, basketball and baseball and by girls in basketball. These teams compete in the Granite League with considerable success and have gone on to make good showings in state-wide tournament competition. Our girls also play an informal schedule in softball.

Athletic competition in the junior high grades is organized on an intramural basis.

The Elementary School

We presently have nine full-time teachers instructing pupils in grades one through six. Their work is supplemented by that of Mrs. Lovering in Remedial Reading, Mr. Nute in Music, Mr. Robinson in handwriting and Mrs. Care in Conservation. The pupil-teacher ratio is very favorable and the work is progressing well. This year we have only one room with multiple grades. This seems a necessary arrangement on some occasions as grades are too large for one teacher and not really large enough to make two full teacher loads.

Plans have progressed for more work in reading. The new basic program has been chosen and complete adoption is anticipated this year and next.

The Modern Mathematics program has been in operation long enough so that pupils are working at all levels with considerable background. Many of the problems encountered earlier have been eliminated.

We hope to do more before September in determining readiness of pupils for certain phases of their work. It will probably be administered in conjunction with the remedial program already in existence.

Routine physical examinations have been given by Dr. Paul and Mrs. Ford. A considerable number of corrections have already been made in glasses. Good progress is being made in caring for dental needs. This work has been done in all grades.

Conclusion

For the second time in five years our schools have been involved in administrative and supervisory reorganization as directed by the state. I believe we can bring improvements and advantages to our schools through the added personnel as provided by this latest change.

In concluding this report I wish to thank all who are responsible for directing or assisting in any way in helping our system to function. I am indebted to many people for support and cooperation as I have tried to administer the schools on the local level. Our citizens indicate by their approval of requests that they are behind our desire to improve the school and its offerings.

Respectfully submitted,

IRVIN H. GORDON, Principal

January 29, 1968

REPORT OF THE SUPERINTENDENT OF SCHOOLS

I am pleased to share with you the challenges of public school education. By action of the State Board of Education, the School District of Marlborough became one of six school districts in the enlarged New Hampshire Supervisory Union 29, as of July 1, 1967.

My report will be brief to permit more space for reports of my associates in specific areas. Mr. Alfred Lambert, Assistant Superintendent Secondary Schools, Mr. James Cusick, Assistant Superintendent Elementary Schools, Mr. Donald Alward, Business Manager, assist in resolving the problems of administration and educational leadership with the six boards of education. During the first year together we find it necessary to devote much of our energy and thought to the mechanics of operating our enlarged school system. As time goes on we sincerely hope that we can stimulate and assist all schools in the union to greater educational progress. Our professional staff can benefit by cooperative association as we deal with new methods and materials of education. We desire to be of help as we bring together the valuable experience of many people.

I am increasingly concerned about the financial problems of New Hampshire communities, especially those with many children and limited real estate. Our charge is to seek the very best for your boys and girls in the public schools, Grades K-12. We cannot do this in times of inflation, and increasingly bitter competition for professional services, without sharply raising real estate taxes. Many feel that New Hampshire's state tax structure is archaic, thrusting back on the towns the major burden of education and other services. Nationally, state aid provides over 40% of local school costs. Marlborough's real estate valuation is about one-third less per pupil than the state average. New Hampshire's share of the local burden fluctuates around 10%. If we are to maintain high quality schools, under these circumstances, a high tax rate is unavoidable. I think that most of us agree with Attorney Eugene Struckoff as he spoke at the Annual School Boards Conference: "We want to live in the state that is the best — not in the one that is the cheapest."

We regret the untimely passing of Alden Beauregard and are grateful for his many years of devoted service on our school board.

Our boys and girls require the best in education so that they will be qualified to compete with others from many areas and to accept their responsibilities in a world of turmoil. It requires the dedication and support of all of us to provide a superior school system.

JOHN W. DAY

January, 1968

Superintendent

REPORT OF THE ASSISTANT SUPERINTENDENT, SECONDARY

Increased Demands on Education

It is unrealistic to discuss education without first talking about the society in which the schools operate.

Anyone who is willing to take an honest look at our country today must, in my judgement, conclude that we are in serious trouble. How serious only time will tell, but even a hasty analysis of our times offers considerable evidence that the great society is indeed a sick society. Many examples come to mind — Vietnam, Detroit, our nation's capital, the crime problem, and others.

The time has come, it seems to me, to ask just what it is that we stand for as a nation. Is the American dream for real? How wide are the differences between what we say we are and what we really are, and who is willing to examine these differences? How realistic is our apparent assumption that the American brand of democracy can be exported just as we export an American car? I cannot presume to answer these questions, but I can say that these issues, along with many others, should be given serious thought.

The question before us in education, however, is how the schools should respond to our times. Please note that the question is not whether we should respond, but HOW? The schools cannot be an island of tranquility in the stormy sea of our society; they must in some measure reflect the conflict, the tension, the change that is all around us, while at the same time providing a sense of purpose, or self-confidence, a knowledge of self for each individual with whom we work.

More Individual Learning

One area of change that we must face more realistically in the future will be in the relationship of the individual child to the institution we call school. We have long known that children are different, and we should know that their patterns of education must differ. We tend now to sort students by such standards as age, place of residence, test results, curriculum level, and ability; in the future we must learn to recognize more fully other factors, such as motivation, creative instinct, and emotional stability. Time for education must become a variable, rather than a constant. The tendency to encourage student participation in decisions about his own education must find an increased number of ways to recognize the individuality of children, the personal nature of the learning process, and the relationship of both of these to the school.

Teachers Can't Be Taken For Granted

The staffing patterns in our schools must change. It is becoming increasingly apparent that the supply of outstanding teachers

in this country is not sufficient to meet the demand. Therefore, we have to spread the talents of those that we have as far as possible, and this will mean, among other things, including para-professional assistance to relieve teachers from essential, but non-teaching duties. We have no right to expect either that our schools will continue to improve, or that good teachers will continue to come here or stay with us if we do not recognize the need to improve the conditions under which our teachers work. Teachers all over the country are beginning to raise legitimate questions about their professional lives, and we must not think that we are going to be somehow remote from this controversy. We do not simply inherit the tradition of being able to attract good teachers — we have to earn that tradition by meeting the legitimate and changing needs faced by our professional staff as they go about their essential and difficult task of trying to develop an education that is truly relevant—both for the individual child and for society.

Our Technological Society Will Challenge Educators To Provide New Goals and Content

A three pronged challenge: **We must really —**

- find ways of educating ALL youth.
- provide more effectively for the development of all youth of higher abilities.
- pave the way for an integrated and open society and, thus, to eliminate poverty, and prejudice, reduce the incentives to crime, and assure the widest possible diffusion of material and cultural benefits.

Considering the child who is presently in the first grade, one might ask, what new or different requirements must he live with during his adulthood — requirements which should demand a re-evaluation of the present educational processes?

Let me relate at least four:

1. He will be moving into a world of work in which his daily activity will depend much more upon his ability to think logically, to handle symbolic and abstract material, and be capable of continued lifelong learning. Work satisfaction will be different for him by a greater degree than the difference which men have experienced between themselves and their grandfathers.

2. He will have to use leisure in a meaningful way. More people must be given the ability and desire to probe questions of values and meaning, must be receptive to wider artistic, spiritual, and intellectual growth. All the senses will have to be developed to know and appreciate the world of nature around one.

3. There will be the requirement to live much of life in ever-closer contact with people — contacts which will take place within formal and informal organizations and communities of interest. As a result, the child will face the problems of divided loyalties as his life becomes a complex of overlapping memberships in different organizations and groups of shared values.

4. He will be required to live under ever-changing institutional values. Because of the continual expansion of life in a technological society, political and social institutions will have to change to keep pace. For example, one will see this through the continued demand for human rights throughout the world, through the increased expectations in the underdeveloped nations of the world, through changes in economic systems, through the development of new methods of productivity, new cultural attitudes, etc. Facing intellectual, social, and political change without the guiding light of sound principles, men will be led to chaos. In order to live in such a changing world, attention will have to be paid to the earliest preparation of the child in an understanding of those basic and enduring values which are the society's soul.

Increased Financial Support

A final change that I would mention has to do with financial support. Here I can only speak for myself, and I cannot presume to speak for the Board of Education. I am totally committed to the necessity of a significant increase in the level of support for public education. It seems to me that this is no longer a question of whether we can afford to do this, but rather a question of whether we can afford NOT to. If the problems that we face today are in any way a reflection of inadequate attention to and support for public education in the past, and I believe they are, then one of our major hopes for any profound changes in our society lies in a vast improvement in that education.

There are undoubtedly those in the community who will suggest that we need not face it, that we can offset such an increase by effecting economies within our present budget. This could be done, to be sure, but I think it would be a false economy. To say that we do not need curriculum specialists, guidance personnel, reading specialists, or librarians, is to say that the classroom teacher can perform these duties in addition to those he already carries, thus reducing the teacher's effectiveness in his fundamental role of teaching.

There are others who would say that we should wait — that the budget continues to increase even though our enrollment is relatively stable, and it is time to give the taxpayers a break. I say that we cannot afford to wait, that the price we would pay in missed opportunities for the children would more than offset the cost of increasing the budget.

Unless we broaden our tax base through whatever means are available to us, we will inevitably have to absorb any increased cost through our real estate tax. This will be, for some, an unpleasant and unwanted prospect. But for all of us, it will become a matter of individual priority, a question of how willing we are as citizens to make whatever sacrifices are involved in such a fundamental need of society.

ALFRED LAMBERT
Asst. Superintendent
Secondary Schools

REPORT OF THE ASST. SUPERINTENDENT, ELEMENTARY

To the School Board and Citizens of Marlborough:

It is with pleasure that I submit this, my first annual report.

School opened in September with a total of 347 students, 250 of whom were in grades one through eight. This is a decrease of thirty-six pupils from the previous year's opening enrollment. The decrease is most likely a result of the A.R.E.A. school in Keene, which causes high school students from the smaller towns to attend school in Keene. This substantially reduces Marlborough's tuition income and necessitates added local financial support.

The newly organized Supervisory Union, effective July 1, 1967, combined Marlborough, and four other towns with the City of Keene for purposes of administration and supervision. Thanks to the cooperation of staff members, school board, and the previous administration, the transition was smooth. As most people realize, the school district still formulates, votes, and oversees the expenditures of its own local school district budget.

Maintenance projects have continued, but these also added to overall costs. The elementary building roof was repaired, the hallway outside the cafeteria has been remodeled, shutters on the elementary school building have been repainted, and old, dead trees outside the cafeteria have been removed. In the high school building there have been some new electrical outlets installed, and minor adjustments to the heating system were made.

Probably it should be mentioned for purposes of information that two areas of school operation have presented fairly serious problems this year. In each case this is in no way the fault of the persons involved, since they are making every effort to do all that is humanly possible. The areas to which I refer are custodial and transportation.

Mr. Farwell has done a commendable job, but no one person can possibly clean all the classrooms, basement rooms, hallways, cafeteria, and gymnasium. Even part-time assistance provided has not proven to be sufficient, so more funds for this are being requested in the 1968-1969 budget.

In the section of town along Route 101 toward Dublin, and in adjacent areas toward Chesham, Roxbury, and Harrisville, there are presently three transporters, and earlier this year there were five. These three persons transport about twenty pupils; one is paid a daily rate, another an annual rate, and another a per child-per day rate. It is unfortunate that more adequate provisions cannot be made.

Serious study and discussion was held at board meetings during the fall months regarding the advantages and costs of kindergarten. One consideration entering the discussions was the fact that no additional offering would be a forward step if it caused present offerings to become "watered down." On the other side of the coin is the fact that children here are fully as deserving of opportunities as children anywhere, and therefore, should be provided with a public school kindergarten program.

Classroom space is available, although some reassignment of rooms would be necessary and the one room to be used for the kindergarten would have to be remodeled. Additional (noontime) transportation would be necessary, as well as a teacher and the necessary supplies, materials, and equipment.

This type of early childhood education affords children the opportunity to develop skills and understandings, acquire interests and attitudes, and develop responsibility and independence. All of this is accomplished through specific, sequential programs.

Since the continued operation of presently existing programs causes a substantial increase in the budget, it has been decided to propose the establishment of a kindergarten program in special articles in the school district warrant, thus allowing the voters to make the decision.

To return once again to the problems of money, citizens might be interested to know the per-pupil costs of educating children in Marlborough. For 1966-1967 the costs were as follows:

(Net pupil costs based on average daily membership, not including transportation or capital outlay.)

High School	\$828.57
Junior High School	524.83
Elementary School	438.25

To add transportation and capital outlay expenditures would add ten to fifteen dollars to each of these costs.

Once again, I would like to thank everyone concerned for their assistance in this year of transition. I look forward to continued educational work in the School District of Marlborough.

JAMES J. CUSICK

Asst. Superintendent of Schools

January, 1968

**MINUTES OF THE ANNUAL SCHOOL DISTRICT MEETING
OF THE MARLBOROUGH SCHOOL DISTRICT
HELD MARCH 4, 1967**

Meeting called to order at 3:00 P.M., March 4, 1967, by Moderator Ralph A. Pierce and warrant read. The moderator declared the meeting open under Article 1 calling for the election of a moderator, a clerk, a member of the School Board for three years, a treasurer and an auditor under the Non-partisan Ballot System.

The meeting was further called to order at 8:00 P.M. by the moderator to act upon the following subjects. The moderator declared the meeting open for action on Article 2 through 8 inclusive.

Article 2. Voted favorably on the motion of Alphonse A. Despres that we refer Article 2 to Article 5.

Article 3. Voted favorably on the motion of Charles B. Knight that we accept the reports of agents, auditors, committees or officers chosen, as printed in the annual town report, excepting and reserving the right to make any alterations in Article 5 that any voter wishes.

Article 4. Voted favorably on the motion of Alphonse A. Despres that we refer Article 4 to Article 1.

Article 5. Voted favorably on the motion of Alden J. Beau regard that the district raise and appropriate the sum of \$268,552.14 for the support of schools, for the payment of salaries of school district officials and agents and for the payment of statutory obligations of the District.

Article 6. Voted favorably on the motion of William Cummings that the District authorize the school board to make application for and to accept, on behalf of the District, any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire.

Article 7. Voted favorably on the motion of Alphonse A. Despres that the district raise and appropriate the sum of \$550.00 for the purpose of providing and installing a new sound system for the school auditorium-gymnasium or take any action thereon.

During the discussion under this article, Mr. Despres read a report from the committee appointed at the last District meeting under the chairmanship of Mrs. Karl Robinson listing the required components for a satisfactory sound system and their estimated cost.

Article 8. It was suggested by Oliver F. Derby that the meeting extend to Ralph A. Pierce a standing ovation for his services as moderator over the past years and this was done.

No further business appearing under this article, the moderator declared that the meeting would return to Article 1.

All persons having voted who wished, the polls were declared closed by the moderator at 9:00 P.M. The ballots were examined and counted and the votes for the various candidates were tallied by the moderator, in the presence of the district clerk and other election officials. When the counting was completed, the results of the counts were declared and publicly announced by the moderator as follows:

Total number of votes cast	44
For Moderator	
Frank E. Knight received	30 Elected
Ralph A. Pierce received	3
For District Clerk	
Oliver F. Derby received	43 Elected
For School Board Member (3 years)	
Alden J. Beauregard received	42 Elected
For District Treasurer	
Oliver F. Derby received	43 Elected
For Auditor	
Rachel Ohman received	24 Elected

The newly elected moderator was qualified by the district clerk.
The meeting adjourned at 9:15 P.M.

Attest:

OLIVER F. DERBY

District Clerk

Report of Forest Fire Warden & District Chief

The year of 1967 will go down in history as a wet year although the early spring was dry and windy. During this time, we had many fires, unnecessary fires caused by carelessness and disregard for the common-sense fire laws and regulations. This lack of responsibility on the part of a few people hurts everyone. Let's work together to prevent the start of those unnecessary fires by:

1. No burning between 9:00 A.M.-5:00 P.M. and then only with a permit from the Forest Fire Warden.
2. Take all debris and waste to the town dump.
3. Keep a clean, safe town dump.
4. Urge close supervision of children in regard to use of matches.
5. Exercise care with smoking material-use the ashtray.

Number of Fires & Acres Burned

	Fires	Acres
State	408	520
District	57	251
